First to Market with NPS

The toxicology market is ever changing. With new designer drugs appearing all too frequently, it's essential to react and create new tests. Our expertise in research and development allow us to do exactly that – evident through our two New Psychoactive Substances (NPS) test panels. We are first to market for AH-7921, U-47700 and MT-45, with many more to come.

NPS I

Biochip Drug Group		
AB-CHMINACA	JWH-018	PNP II
AB-PINACA	Mephedrone	Salvinorin
α-PVP	Mescaline	UR-144
BZP	PNP I	-

NPS II
