

VeraSTAT

EXCELLENCE AT THE POINT OF CARE

The Randox VeraSTAT is a simple, accurate, fast, economic and small footprint portable point of care device based on cathodic electrochemiluminescence technology. Designed to offer users the next generation of rapid diagnosis providing results in as little as 6 minutes.

The superiority of the VeraSTAT allows for users to overcome performance limitations of previous generation tests relating to sensitivity, accuracy, ease of use and cost efficiency. Combined with a versatile testing menu, the VeraSTAT is built to outshine and enhance detection in any setting.

BENEFITS

- » Accurate results in as little as 6 minutes
- » Simple and easy to use with minimal training required
- » Easily transportable to multiple testing locations
- » All-in-one cassette
- » Versatile test menu
- » Requires just a few drops of blood
